

Appl. No. 10/749,491
Amdt. dated March 31, 2005
Reply to Office action of January 1, 2005

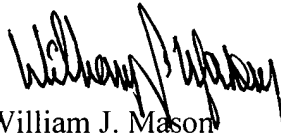

Remarks/Arguments

The limitation of dependent Claim 6, held to be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim, has been added to independent claim 1. Therefore, Claim 1 and all claims dependent thereon should be in allowable condition. Claims 8-20 have been held to be allowable. Claim 21 has been cancelled.

Three copies of a replacement drawing for Figs. 4 and 5 are enclosed. Numerals 54 and 56 have been added to identify the connecting rods. The connecting rods and their relationship to the carriages are described on page 6, lines 1-2. The rods are also identified by the numbers 54 and 56 in Figs. 1 and 2.

For the foregoing reasons, and in view of the amendments to the claims, it is believed that this application now defines a patentably distinguishable invention and is accordingly in condition for allowance. Such action is respectfully solicited.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "William J. Mason", is written over the printed name.

William J. Mason

Amendments to the Drawings:

The attached sheet of drawings includes changes to Figs. 4 and 5. This sheet, which includes Fig. 4 and 5 replaces the original sheet including Figs. 4 and 5. In Fig. 4, previously omitted element 56 has been added. In Fig. 5, previously omitted elements 54 and 56 have been added.

Attachment: Replacement Sheet
